Project 6: Keying - Chroma Key

Create a video in 3 shots using Keying techniques.

The result must be a showcase of how you use green screen and chroma keying in different ways.

Requirements:

1. Video has 15-21 seconds length
2. Video contains at least 3 shots
3. All 3 shots are using Keying techniques with different layering:
      a. Video over video
      b. Video over still photo
      c. Video over digital file

be prepared for your green screen shooting on Oct 26th.
Save all the footages in a safe place and have back up!

Save the file as:
Project06_keying_LastName_MMDD.mov

We edit your footages on Tuesday, October 31st.
You will upload the final file to your folder in CSUNBox before class on Thursday, November 2nd.
